

Materials:

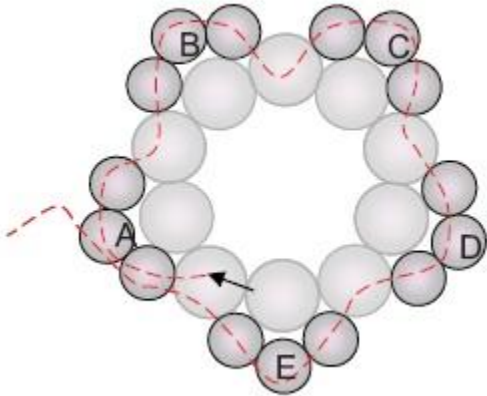

Step 1 – KEEP TENSION TIGHT

Begin with 1.5 yards of thread. Pick up 10 size 8/0 seeds. Go into the first size 8/0 seed again to form a circle.

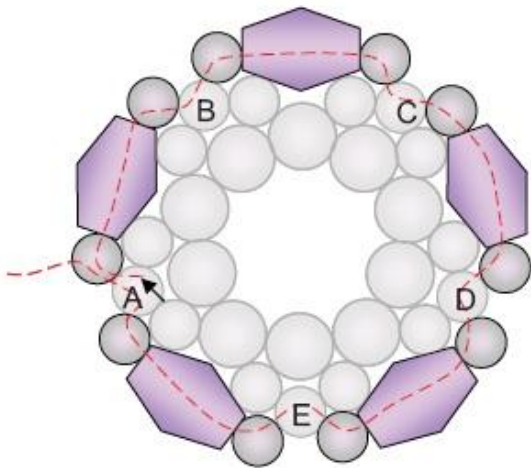

Step 2

Pick up 3 size 11/o seeds, skip 1 size 8/o seed, go into the next 8/o. Repeat 4 more times, then go into the first 2 size 11/o seeds picked up.

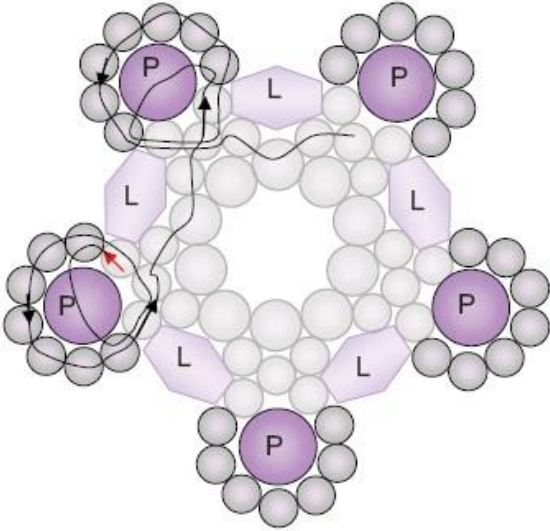

Step 3

Pick up 1 size 11/o seed, 1 L crystal and one size 11/o seed. Go into the size 11/o seed marked B from the previous round. Pick up 1 size 11/o seed, 1 L crystal and 1 size 11/o seed. Go into the next seed marked C from the previous round. Continue around until you have 5 L crystals. Exit the first 11/o seed bead from this round.

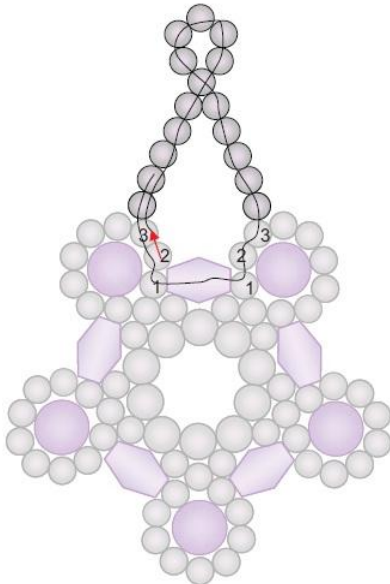

Step 4

Follow the thread path in the diagram *Pick up 1 size 11/o seed, 1 P, 1 size 11/o seed. Go backwards into the 11/o seed next to the previous L crystal. Go through the next two 11/o seeds and up into the 1st size 11/o seed picked up. Pick up 5 size 11/o seeds and go backwards into the 1st size 11/o seed next to the P just picked up. Go through the next 3 size 11/o seeds, the size 8/o seed underneath the next L crystal and through the next 3 size 11 seeds. You will exit the size 11/o seed next to the next L crystal*. Repeat *to* 4 more times.

Step 5

Weave through the earring and exit the 3rd size 11/o seed from the L crystal. Pick up 11 size 11/o seeds. Go down into the 6th size 11/o seed picked up to make a loop for your ear wire. Pick up 5 size 11/o seeds and go down into the 3rd size 11/o on the other side of the L crystal. Go through the L crystal and repeat the thread path to reinforce. Weave in all loose threads and add your ear wire.

That's it! In 5 easy steps you'll have yourself a beautiful Silver Moon Earrings.
